WELCOME TO DYNAMO!

What is Dynamo?

The Dynamo Youth Culture Center is a non-profit institution located directly on the Limmat River, it's part of the Social Services of the City of Zurich. Our users and visitors, along with their cultural interests, are at the center and shape everything we offer. We provide youth and young adults with spaces where they can develop their own initiative, assume responsibility, and unleash their creativity. They implement their activities, projects, and events according to their own ideas and needs and receive professional and practical support as needed.

At the same time, we are also a meeting place for the entire population, building bridges between generations.

In this way, we make youth culture accessible to a broader section of the population and foster mutual understanding and acceptance.
